17 Cool Sister Photoshoot Ideas

Here are our 17 cool sister photoshoot ideas so you can create images that celebrate and spread the sisterly love. They're fab ideas for sisters of all ages.

1. Have The Sisters Sit Together

This photo idea may seem basic, but a simple approach can produce beautiful results. It works with sisters of all ages. You can set this scene with two sisters or three sisters. In fact, there's no limit.

Have the sisters sit somewhere they'll be relaxed and comfortable with each other. Take your time, and when they're all at ease, take a few shots.

2. Shoot From The Rear

Again, have the sisters sitting with each other. But this time, take the photo from behind them. Choose a [beautiful location](#) so that they can enjoy the view.

Having the sisters sit together in a special location creates an intimate image. You can see the sisters enjoying a shared experience. To enhance these photo ideas, use a location with personal significance for a beautiful backdrop.

3. Try Matching Outfits

Matching [outfits](#) is a classic photo idea with sisters' photoshoots, especially [twins](#). But matching outfits look great with sisters of different ages. It's adorable with young children, but it can also look sharp and stylish with older sisters.

© Bui Thanh Tam ([Unsplash.com](https://unsplash.com))

4. Use a Yin and Yang Colour Scheme

Rather than going to classic matching outfits, use colours and clothes that follow a [colour scheme](#). You don't want them to match exactly. But you can have colours that echo from one sister to another.

You can have the top colours of one match the bottom colours of the other sister. These photo ideas work well in a [studio photo session](#).

© Hay Dmitry ([Depositphotos.com](https://depositphotos.com))

5. Create Something in the Kitchen

The kitchen is where some of the most magical family memories are created. And having sisters cook together will create real moments of natural cooperation and harmony. Or, if they're not so harmonious, you'll have some excellent interaction shots.

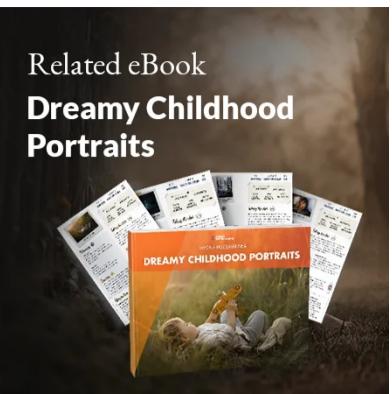

© Evgeny Ataman (Depositphotos.com)

6. Include the Family Pet

Pets are just as much a part of the family as everyone else. They are loved and adored, which is why you should include them in your family photography.

You can have the sisters sit with their favourite pet for a posed shot. Or you can have them all playing together for something more spontaneous.

7. Look From a Bird's Eye View

This is another photo idea that works well with sisters of all ages. And you can choose nearly any location you can think of. They can be lying on the grass in the garden, on a picnic blanket, or perhaps on the floor in the living room.

The sisters can be facing the same way. Or you can have their bodies facing in different directions. When their position is correct, have them look up at the camera for an interesting [bird's eye shot](#).

8. Tell Secrets and Pass Secret Messages

Sisters have some of the closest bonds in human nature. And they often tell each other their most closely guarded secrets. This is something you can use in your sisters' photoshoot.

Have one sister whisper a secret to the other and capture the intimate moment with your camera. You need to be ready to shoot because you don't know what the other sister's reaction will be.

© Vitolda Klein (Unsplash.com)

9. Watch Them Walk Away

When the camera is behind your subjects, they forget the camera's there. This can allow for some natural and heartwarming moments.

The sisters can walk away from or ahead of you. When they feel relaxed, perhaps they'll walk arm in arm or hand in hand. It's a touching moment that'll become a treasured photograph.

© Andrea Tummons ([Unsplash.com](https://unsplash.com))

10. Embrace Their Heritage

Sisters can grow apart in later life. But no matter independent each branch of life becomes, they always have the same roots. And you can bring these roots into your sisters' photoshoot.

Have the sisters embrace their culture and heritage by using traditional costumes and clothes. Photo ideas like this celebrate the immediate family and celebrate their culture and a wider identity.

11. Give a Piggyback

A great way to inject a bit of fun into a sisters' photoshoot is to have one sister give the other a piggyback ride. This photo idea works especially well with sisters of different ages.

Photo ideas like this not only add fun and playfulness, they also hold a deeper meaning. Older sisters look after and care for their younger [siblings](#). And in this context, a playful piggyback ride can symbolise a lifetime of sororal support.

© Yohann Libot ([Unsplash.com](#))

12. Sit Shoulder to Shoulder

Sitting shoulder to shoulder or back to back might seem unnatural. But it's another way of bringing deeper meaning to your sister photo ideas.

If the sisters sit back to back, it demonstrates the support they give one another. And once the shoot has started, they'll relax, and the photographer will be able to get some fabulous shots.

13. Laugh Together

Sisters go through the ups and downs of life side by side. And laughter is often the thing that keeps them together. The moments of laughter are real moments of fortitude and strength.

In terms of technique, there isn't much to this photo idea. You need to create a relaxed environment where the two or three sisters can share the joy of each other's company.

Young siblings laughing makes an adorable image. But when this idea is done with older siblings, the photo can hold more meaning and depth.

© Silverblack (Depositphotos.com)

14. Go Moody With the Lighting

Teenage girls might not enjoy many of the usual sister photo ideas. They might be too cool for matching outfits or orchestrated activities. Instead, you can indulge their darker attitude by using [moody lighting](#).

Whether you're in a photography studio or at home, using darker lighting can create an environment where they feel comfortable. They can play the moody teenager, and you can still get some excellent family photos.

© Luis Machado ([Unsplash.com](#))

15. Get Crafty with Paints and Brushes

People of all ages love getting messy with paints. If you have the tools and space, painting is a fab activity for a photoshoot. It's fun for sisters of all ages. When they're distracted with the paints, you'll be able to snap some natural photos of them at play.

© Gorodenkoff ([Depositphotos.com](#))

16. Taking Care of Baby

If one of the sisters is very young, you can have the older take care of the young. They'll love to have the responsibility of looking after their baby sister.

Of course, they'll only be looking after the baby in a performative sense. But you'll be able to capture a special moment of love between the two sisters.

17. Jump for Joy

Star jumps may seem a little silly for a photoshoot. They are silly, and this is a silly idea. But that's the point. It's sure to put a smile on everyone's face.

Young girls will have fun jumping around. But adult sisters will have just as much fun once they've loosened up.
